

Accessibility Statement

We are committed to providing a website that is accessible to the broadest possible audience. To do so, we are actively working to update our website by increasing its accessibility and usability by persons who use assistive technologies such as automated tools, keyboard only navigation and screen readers.

We are working to have our website conform to the relevant standards of the Section 508 Accessibility Standards developed by the United States Access Board, as well as the World Wide Web Consortium's (W3C) Web Content Accessibility Guidelines 2.0. These standards and guidelines explain how to make web content more accessible for people with disabilities. We believe that conformance with these standards and guidelines will help make the website more user friendly for all people.

Our efforts are ongoing. While we strive to have the website adhere to these guidelines and standards, it is not always possible to do so in all areas of the website. If, at any time, you have specific questions or concerns about the accessibility of any particular webpage, please send an email to CommunityOutreach@yrmc.org so that we may be of assistance.

Thank you. We hope you enjoy using our website.
